

NON-IMP TRAINING SUMMARY REPORT COVER PAGE

As noted in the IMP Handbook, if students would like to participate in training that is not a part of the standard IMP curriculum and that will require a substantial time commitment, they are to obtain the permission of their mentor and the IMP DGS before making a commitment to the training. In order for the DGS to approve a non-IMP training activity, the student must have had a documented committee meeting showing satisfactory progress within the last year (if in years 2 or 3) or within the last 6 months (if in years 4-6), or must present documentation of one scheduled in the upcoming month. In addition, the student must be in good academic standing according to the guidelines in the GDBBS Handbook. Additionally, at the end of the training experience, the student is to submit a one-page summary report describing how the activity contributed to their training or professional development. Students should fill out and attach this cover page to their report. This documentation assists the Program in identifying valuable training experiences for future students and we appreciate students taking the time to submit it.

Student Name: _____

Advisor's Name: _____

Student's Year in Program: _____

Name of Training Activity: _____
